I. Funding Opportunity Description

The Middle East Partnership Initiative (MEPI) of the U.S. Department of State is pleased to announce its ongoing competition for funding through MEPI's Local Grants program. If you wish to apply for a local grant, please follow all instructions below carefully.

Purpose of Local Grants: Local grants promote reform and civic activism at the local and national levels in countries of the Middle East and North Africa, build the institutional capacity of non-governmental organizations (NGOs), and strengthen civil society. Local grants are implemented by members of civil society, including NGOs, civic groups, reform networks, and academic institutions that are committed to supporting democratic values and the active participation of all individuals in social, political, and economic life. Local grants are typically awarded only to local, not international, organizations. Funding is available for projects that protect and advance civil liberties especially political and civic rights, empower women and youth, strengthen the rule of law, develop independent and pluralistic media, foster economic opportunity and economic reform, and promote an educated, active, and informed citizenry. Local grant projects are intended to support quick impact activities. They generally are

completed in one year and should be designed to carry out proposed activities and make an impact within that one-year period. Proposed local grant projects should involve activities in one or more of the following areas:

- Advocacy by civil society, NGOs, and professional associations, including grassroots level and community organizations, to promote legal or political reforms and raise public awareness of democratic values and processes.
- Development of networks, partnerships, and coalitions that could include local NGOs, civil society organizations, government officials, and/or the business community to promote reform.
- Expansion of opportunities for youth (ages 15-24), particularly those that to provide practical, hands-on experience in civic engagement, public service, and volunteerism, and that help to improve local communities.
- Expansion of women's participation in public life at the local, regional, and national levels.
- Promotion of the rule of law, including rights education, education of legal professionals, and advocacy activities to expand civic rights and to ensure legal judicial systems protect the rights of all individuals.
- Promotion of legal frameworks and processes that expand citizen participation in politics and public life.
- Promotion of good governance, including anti-corruption efforts and initiatives to promote government transparency and integrity.
- Promotion of public awareness of current political issues and processes, including voter education.
- Development of media institutions that defend the public interest and provide credible and diverse sources of information.
- Promotion of economic reform that expands economic opportunity especially for youth, including promoting entrepreneurship and commercial and legal reforms, as well as workforce development training.
- Expansion of educational opportunities, including civic education activities that promote tolerance of different views, respect for democratic values and institutions, protection of ethnic and religious diversity, leadership development, and community service.

Eligible countries and territories for direct MEPI Local Grants include: Algeria, Bahrain, Egypt, Iraq, Israel, Jordan, Kuwait, Lebanon, Morocco, Oman, Qatar, Saudi Arabia, Syria,

The Middle East Partnership Initiative is committed to an anti-discrimination policy in all of its projects and activities. MEPI welcomes proposals irrespective of the applicant's race, ethnicity, color, creed, national origin, gender, sexual orientation, or disability. We invite applications from organizations working with minority, disenfranchised, and lesser-served communities, including women and youth. MEPI is also interested in proposals that involve the participation of persons with disabilities.

Dun and Bradstreet Data Universal Number System and Central Contractor Registration:

Until May 15, 2012 Local Grant applicants are not required to obtain a Data Universal Number Systems (DUNS) number and the Central Contractor Registration (CCR) because of a one-year waiver that MEPI received on May 16, 2011. **However, MEPI strongly encourages all applicants to obtain a DUNS number and CCR registration.** Any applicant submitting a local grant application after May 15, 2012 must have a DUNS Number and CCR status to apply for or receive MEPI funding.

Dun and Bradstreet Data Universal Number System (DUNS): The Data Universal Number System is a nine-digit number established and assigned by Dun and Bradstreet,

Inc. (D&B) to uniquely identify business entities. Obtaining a DUNS number is the first step, required by an organization, to register with the Grants.gov system. **A DUNS number may be acquired at no cost on-line at: fedgov.dnb.com or via telephone at: 1-866-705-5711.** This process normally takes one business day. After May 15, 2012 applications which do not include the applicant's DUNS number will not be considered for funding.

Central Contractor Registration (CCR): The CCR is the Federal repository in which an applicant must provide information required for the conduct of business as an award recipient. Obtaining Central Contractor Registration is the second step, required by an organization, to register with the Grants.gov system. CCR registration expires each year and applicants are encouraged to update their registration annually. Further, applicants are encouraged to maintain an active CCR registration, with current information, while their application is under consideration for funding. **Registration procedures may be found at www.ccr.gov.** This process can take three to five business days or up to two weeks. After May 15, 2012 applicants who are not registered with CCR will not be considered for funding.

IV. Application and Submission Information

All applications must include the components outlined in this section. **NOTE: Applications may be submitted in English, French, or Arabic.**

Required Application Documents:

1. **Federal Assistance Application Forms (SF-424 and SF-424a):** Applicants must complete these two forms to be considered for funding. **Information on how to complete these forms can be found in Appendix 1.**
2. **Project Narrative:** The Project Narrative describes the applicant's project idea and the efforts the applicant will undertake to address the priorities and goals of this announcement. A sample template can be found in Appendix 2. **NOTE: Applicants are strongly encouraged to use the sample template to complete their application.** It is our intention that this worksheet will save you time and effort. If an applicant decides not to use the template, they must ensure that their submission addresses all the questions presented in the template.
3. **Budget Narrative:** The Budget Narrative provides detail about both the Federal request and the non-Federal match. A sample template can be found in Appendix 3. **NOTE: Applicants are strongly encouraged to use the sample template to complete their application.** It is our intention that this template will save you time and effort. If an applicant decides not to use the template, they must ensure that their submission outlines and addresses all the budget categories displayed in the template.

Submitting an Application to MEPI:

When you have completed the SF-424, SF-424a, and Project Narrative, and Budget Narrative please submit your application via email to the U.S. Embassy or Consulate in your country or territory. The appropriate U.S. Embassy contact information can be found in Appendix 5.

Your application may also be submitted online via www.grants.gov. To submit a proposal via Grants.gov applicants will need to register with the site. Applicants are warned that Grants.gov requires a registration period of two-weeks.

Your application may be submitted in English, French, or Arabic.

V. Application Review and Selection Process

Complete applications submitted under this announcement will be reviewed by a MEPI Committee at the U.S. Embassy in your country and will be evaluated and rated on the basis of the following evaluation criteria. The criteria are designed to assess the quality of the proposed project and to determine the likelihood of its success. The criteria are closely related and are considered as a whole in judging the overall quality of an application. Applications will be reviewed on the basis of their fullness, coherence, clarity, and attention to detail.

After review by the MEPI Committee, your application will receive a secondary review by MEPI's Regional Offices (Tunis and Abu Dhabi). During this review your application will be evaluated based on MEPI goals and priorities.

MEPI receives more applications for local grants than MEPI can fund. Applications are judged against each other on a rolling basis as new applications are received and new funding becomes available. Therefore, only the most competitive proposals recommended by MEPI Committees will be selected for further consideration by MEPI's Regional Offices. If your proposal is selected by a MEPI Committee for further consideration, the relevant MEPI Regional Office will evaluate your proposal and will make a final funding decision. As part of this process the Regional Office may begin award negotiations, but the issuance of a grant award is contingent on the availability of funds.

Application Evaluation Criteria:

Results or Benefits – Applicant demonstrates and explains how the project will achieve the proposed results and create maximum impact. The project addresses one or more of the MEPI priorities outlined in this announcement and on MEPI's website. The application demonstrates that the implementer is able to measure program success against proposed measurable achievements and completion dates, indicating progress toward MEPI priorities.

Approach and Innovation – Applicant clearly describes how the project will achieve its objectives within the proposed time frame. Applicant proposes a creative, innovative, and/or well organized and conceived strategy or plan to complete the activities. The proposed project factors in possible challenges and addresses ways by which potential obstacles may be overcome.

Organizational Capacity – Applicant is focused in one or more of the MEPI priority areas described above and demonstrates a strong potential to develop the ability and experience, , to carry out the proposed activities. Each key person responsible for the proposed project and for financial administration of the project is listed, and curricula vitae (CVs, or resumes) for these persons are provided. Where partner organizations are proposed to carry out project activities alongside the applicant organization, the applicant details each partner’s respective role and provides CVs for persons responsible for the project and financial administration.

Budget and Budget Justification - The budget and narrative justification are reasonable in relation to the proposed activities and anticipated results and the plan for services is realistic.

Notice of Overseas Federal Assistance Award Certification and Assurances

TERRORISM -Blocking Property and Prohibiting Transactions Who Commit, Threaten To Commit, or Support Terrorism, Executive Order 13224:

Executive Order 13224 designated 27 individuals and entities that commit or pose a significant risk of committing terrorist acts and authorized the Secretary of State to designate additional individuals and entities.

The recipients are reminded that U.S. Executive Order and U.S. laws prohibit transactions with, and the provision of resources and support to, individuals and organizations associated with terrorism. It is the legal responsibility of the recipient/contractor to ensure compliance with these Executive Orders and laws.

HOST COUNTRY LAWS (for non-US NGOs):

The recipient's employees shall maintain private status and may not rely on local U.S. Government offices or facilities for support while under this recipient.

The sale of personal property or automobiles by recipient employees and their dependents in the foreign country to which they are assigned shall be subject to the same limitations and prohibitions which apply to direct-hire Department of State personnel employed by the Mission, except as this may conflict with host government regulations.

Other than work to be performed under this award for which an employee is assigned by the recipient, no employee of the recipient shall engage directly or indirectly, either in the individual's own name or in the name or through an agency of another person, in any business, profession, or occupation in the foreign countries to which the individual is assigned, nor shall the individual make loans or investments to or in any business, profession, or occupation in the foreign countries to which the individual is assigned.

The recipient's employees, while in a foreign country, are expected to show respect for its convention, customs, and institutions, to abide by its applicable laws and regulations, and not to interfere in its internal political affairs.

In the event the conduct of any recipient employee is not in accordance with the preceding paragraphs, the recipient's chief of party shall consult with the Department of State Mission Director and the employee involved, and shall recommend to the recipient a course of action with regard to such employee.

The parties recognize the rights of the U.S. Ambassador to direct the removal from a country of any U.S. citizen or the discharge from this award of any third country national when, in the discretion of the Ambassador, the interests of the United States so require.

HOST COUNTRY LAWS (for PIOs):

Member states of a PIO must respect the independence of the PIO, and the integrity of its operations within the framework of its charter. It is a general policy principle that PIOs, composed of many member nations, are not expected to subject their books and records to inspection by officials of each country participating in the organization. Accordingly, Department of State generally relies on the international organization's management and its internal auditing and procurement policies and procedures.

Appendix 1

RELIGIOUS PERSECUTION:

With regard to religious persecution in particular, the recipient must ensure that its personnel take into account in their work the considerations reflected in the International Religious Freedom Act concerning country-specific conditions, the right to freedom of religion, methods of religious persecution practiced in foreign countries, and applicable distinctions within a country between the nature of and treatment of various religious practices and believers.

LIABILITY:

The recipient shall hold and save the Government, its officers, agents and employees harmless from all liability of any nature or kind, including costs and expenses, for or on account of any or all suits for damage sustained by any person or persons or property by virtue of performance of this award.

PROTOCOL AND DECORUM:

During the term of this award, the recipient will be associated with the Government in such a manner that the recipient's actions will reflect upon the Government and the United States. Therefore, the recipient will be responsible to the U.S. Public Affairs Counselor in charge regarding protocol and decorum at all times.

LOBBYING RESTRICTION:

The recipient agrees that none of the funds provided by this agreement shall be used by the recipient for lobbying or propaganda which is directed at influencing public policy decisions of the Government of the United States or any State or locality thereof. This provision shall not be construed so as to abridge the right of any recipient to exercise the same freedom of speech as is protected by the first article of amendment of the United States Constitution, so long as such recipient does not use funds provided under this award in exercising such right.

CONTROLLED SUBSTANCES:

By acceptance of this award and any assistance (payment) hereunder, the recipient certifies that the recipient will not engage in the unlawful manufacture, distribution, dispensing, possession, or use of a controlled substance during performance of the award.

DEBARMENT AND SUSPENSION:

You must comply with requirements regarding Debarment and suspension in Subpart C of 2 CFR part 180, as adopted by the Arts Endowment in Title 2 CFR, Chapter 32, and Part 3254. There are circumstances under which we may receive information concerning your fitness to carry out a project and administer Federal funds--for instance:

- Conviction of, or a civil judgment for, the commission of fraud, embezzlement, theft, forgery, making false statements;
- Any other offense indicating a lack of business integrity or business honesty that seriously and directly affects your present responsibility; or
- Any other cause of so serious or compelling a nature that it affects an organization's present responsibility. In these circumstances, we may need to act quickly to protect the interest of the government by suspending your funding while we undertake an investigation of the specific facts. We may coordinate our suspension actions with other Federal agencies that may have an interest in our findings. A suspension may result in your debarment from receiving Federal funding government-wide for up to three years.

MIDDLE EAST PARTNERSHIP INITIATIVE LOCAL GRANTS PROGRAM

Project Narrative Instructions

In order to help MEPI determine if your project idea meets the program goals for a MEPI Local Grant, we request that you use this Project Narrative worksheet to describe your project idea. Please follow all instructions below carefully.

We accept Project Narratives in English, French, or Arabic. We look forward to receiving creative proposal ideas that address the areas of interest and allowable activities outlined below. Your project will be reviewed by Embassy staff, and a MEPI representative will let you know if your project idea is suitable for further consideration as a MEPI Local Grant.

MEPI Mission and Objectives:

MEPI works in partnership with civil society organizations, the private sector, and government institutions throughout the Middle East and North Africa (MENA) region to help achieve three overarching goals:

1. Building pluralistic societies in which diversity is reflected in social organizations, politics, business, media, and government, and where all citizens have equal standing, protected by guaranteed rights and by independent and effective judiciaries;
2. Building participatory societies in which citizens play an active role in making decisions that affect their lives and in holding their governments accountable; and
3. Building prosperous societies in which education, specialized skill training, and an environment conducive to business development inspire innovation and create a foundation for long-term economic growth and an internationally competitive private sector.

Local grants promote reform and civic activism at the local and national levels in countries of the Middle East and North Africa, build the institutional capacity of non-governmental organizations (NGOs), and strengthen civil society. Funding is available for projects that protect and advance civil liberties especially political and civic rights, empower women and youth, strengthen the rule of law, develop independent and pluralistic media, foster economic opportunity and economic reform, and promote an educated, active and informed citizenry. Local grants projects are intended to support quick impact activities. They generally are completed in one year and should be designed to carry out proposed activities and make an impact within that one-year

period. Proposed local grant projects should involve activities in one or more of the following areas:

- Advocacy by civil society, NGOs, and professional associations, including grassroots level and community organizations, to promote legal or political reforms and raise public awareness of democratic values and processes.
- Development of networks, partnerships, and coalitions that could include local NGOs, civil society organizations, government officials, and/or the business community to promote reform.
- Expansion of opportunities for youth (ages 15-24), particularly those that to provide practical, hands-on experience in civic engagement, public service, and volunteerism, and that help to improve local communities.
- Expansion of women's participation in public life at the local, regional, and national levels.
- Promotion of the rule of law, including rights education, education of legal professionals, and advocacy activities to expand civic rights and to ensure legal systems protect the rights of all individuals.
- Promotion of legal frameworks and processes that expand citizen participation in politics and public life.
- Promotion of good governance, including anti-corruption efforts and initiatives to promote government transparency and integrity.
- Promotion of public awareness of current political issues and processes, including voter education.
- Development of media institutions that defend the public interest and provide credible and diverse sources of information.
- Promotion of economic reform that expands economic opportunity especially for youth, including promoting entrepreneurship and commercial and legal reforms, as well as workforce development training.
- Expansion of educational opportunities, including civic education activities that promote tolerance of different views, respect for democratic values and institutions, protection of ethnic and religious diversity, leadership development, and community service.

MIDDLE EAST PARTNERSHIP INITIATIVE LOCAL GRANTS PROGRAM

Budget Narrative Instructions

The Budget Narrative provides detail about both the Federal request and cost share. A sample template can be found in Appendix 3. The Budget Narrative is used to determine if the costs in a MEPI application are reasonable and permissible. All of the proposed costs listed, whether supported by grant funds or match funds, must be reasonable, necessary to achieve project objectives, permissible in accordance with applicable Federal cost principles, auditable, and incurred during the project period.

When completing the sample template, applicants should ensure the following:

- Presented in U.S. dollars, rounded to the nearest dollar;
- Include an estimate of the cost of tasks and activities projected based on budget category identified on the Budget Information Form (SF 424a);
- Provide details of calculations including estimation methods, quantities, unit costs, and other similar quantitative detail sufficient for the calculation to be duplicated;
- Funding should not duplicate on-going activities;
- Budget categories should be clearly labeled and identified;
- The use of "miscellaneous expenses" or any similar term as a budget item is unacceptable;
- Cost-sharing (salaries, rent, utilities, equipment, and other organizational costs.) is strongly encouraged. Applicants should document cost-sharing arrangements in their budget narrative description. Cost sharing must meet the three tests in determining the permissibility of costs outlined under the header "Allowable Project Costs" below.

Allowable Project Costs

The cost principles below address three tests in determining the permissibility of costs. These three tests apply regardless of whether the particular category of costs is one specified in the cost principles or one governed by other terms and conditions of an award. These tests also apply regardless of treatment as a direct cost or an indirect cost. The fact that a proposed cost is awarded as requested by an applicant does not indicate a determination of permissibility.

Appendix 4

1. **Reasonable:** A cost is reasonable if, in its nature or amount, it does not exceed that which would be practical under the circumstances prevailing at the time the decision was made to incur the cost.
2. **Allocable:** A cost is allocable to a specific grant if it is incurred solely in order to advance work under the grant; benefits both the grant and other work of the organization, including other grant-supported projects or programs; or it is necessary to the overall operation of the organization and is deemed to be allowable to charge to the grant.
3. **Consistent:** A cost must be consistently charged based on regulations, policies, and procedures of the recipient that apply uniformly to both Federally supported and other activities of the organization. Recipients must be consistent in assigning costs across programs. They must be treated consistently for all work of the organization under similar circumstances, regardless of the source of funding, so as to avoid duplicate charges.

Cost Category Guidelines

Use the checklist information below to ensure that your budget provides all the necessary information.

1. Personnel

- Is each position identified by title or responsibility?
 - **Program Director:** The individual who will provide daily oversight of the grant, including fiscal and personnel management, community relations, and project implementation and evaluation during the project period.
 - **Project Coordinator:** The individual who will coordinate coalition services and MEPI project activities, including training, coalition communication, data collection, and information dissemination.
 - **Financial or Business Official:** The person who handles the financial components of the grant.
 - **Key Personnel:** MEPI grant key personnel include a Program Director and or Project Coordinator. Key personnel are defined as individuals who contribute to the programmatic development or execution of the project in a substantive, measurable way, whether or not they receive salaries or other compensation under the grant.

2. Fringe Benefits

- Is each type of benefit indicated?

3. Travel

- Is the travel necessary for the purpose of the program?
- Are travel costs separately identifiable and reasonable (transportation, hotel, meals, and mileage)?
- Are calculations provided for each cost?

Appendix 4

4. Supplies

- Are supplies listed separately?
- Are costs per unit identified and detailed?
- Is the basis for the cost reasonable?

5. Contractual

- Is the type of service to be rendered described?
- Did you name the consultant or contractor, if known?
- Did you provide a separate budget for sub-recipients or contracts (if applicable)?

8. Other

- Are items grouped by type (space rental, printing, phone, maintenance, and other program/organizational costs.)?
- Are all costs justified and allowable?

Budget Definitions:

Consultant: An individual or organization who gives professional advice and provides services for a fee and is not a direct hire employee of a grantee's organization. Typically a consultant performs a one-time activity.

Contract: A contract under a grant may be awarded for two purposes: 1) goods or services needed to support the grantee's performance of the project or program or 2) an award to a third party for performance of substantive programmatic work.

Direct Costs: Costs used for salaries, travel, equipment, supplies, contractual arrangements, and tangible goods or services associated with this project.

Project Costs: The total allowable costs incurred by a recipient and charged to the award during a budget period. These costs may include those costs supported by Federal funds, costs contributed by the recipient to meet a matching requirement, and the value of any third-party in-kind contributions counted toward the recipient's matching requirement.

Sub-Recipient or Sub-Awardee or Sub-Grantee: A third-party individual or organization who receives an award for the performance of certain programmatic work. All sub-recipients require prior approval from MEPI.
